

Progressive, Patriotic & Liberal

In common with most people across the country the NLP is outraged at the lies, failures and general self interest of the main parties, and like all reasonable people we shun extremism. The NLP offers a new platform of progressive policies for the people, the nation and the environment. We recognise our nation and culture is built upon individual liberty, fairness, and patriotism. The NLP is proud of this and we believe our culture and traditions, along with our green and pleasant land should be cherished. It is this fusion of fresh progressive policies, patriotism and liberalism that makes the NLP different from other parties of the left, right and centre and why we are proud to say we are **Progressive, Patriotic & Liberal**.

The National Liberal Party supports sensible policies

Here are 5 key policies:

CIVIL LIBERTIES – Create a Civil Liberties Watchdog Commission to help ensure our personal freedoms are not eroded.

DEMOCRACY – Introduce into law the use of Referendums which allows the people to vote on major issues such as Europe inc. renegotiating the Lisbon Treaty, Nuclear power and immigration which directly affect the people. This works well in Switzerland.

ENVIRONMENT – A higher tax on companies not meeting emission targets which we'd reinvest in new technologies and support new initiatives e.g. **ensure all new properties include solar panelling**.

NHS – Stop the privatisation of the Health Service. Codify in law that the NHS should be the preferred provider in the health service. Increase funding into national priorities such as the NHS by **ending our costly involvement in overseas conflicts**.

ECONOMY – Promote small businesses and co-operatives and introduce a degree of economic protectionism to help protect jobs in the UK e.g. **Invest heavily in Apprenticeships** to increase our youth's work skills.

Why join the National Liberal Party?

If you like what you have read in this leaflet and are fed up just moaning about the plight of this country or what is happening in your area, take the next step and DO something about it. Join other like-minded people in the NLP, an expanding party that is actively trying to **change things for the better**.
